

The reality of NWMU dues

YOU PAY

Under NWMU, You Would Pay:

\$168 a month*

\$2,014 a year

\$6,042 over a 3-year contract

**Paying dues is no
guarantee**

- No guaranteed pay increases
- No guaranteed new benefits
- No guaranteed patient ratios

THE UNION GAINS

While NWMU Would Gain:

\$19,300 a month*

\$231,605 a year

\$694,816 over a 3-year contract

**But the union gets its
money, plus**

- Union leaders speak for you — even if you don't agree with them
- The ability to increase the amount of dues you're required to pay
- The right to charge you additional fees

Your dues would triple NWMU's revenue.

*Dues estimates are based on full-time employment with the average base salary and NWMU's dues rates and per capita amounts. Article IX, Section 1. Part-time and per diem hospitalists would be required to pay dues.
